

PROTECTION WITHOUT COMPROMISE.

When it comes to helping ensure the safety of people and property, there can be no compromises. You need superior protection that is easy to install and use, highly scalable, and flexible enough for any project, from simple office buildings to the most complex, multi-facility campuses.

Autocall combines the most innovative technology with comprehensive training and support to deliver industry-leading fire and life-safety solutions.

Forward-focused technology

Building on a legacy of advancement and invention, Autocall continually outpaces the competition by delivering technologically superior systems that raise the bar for performance, protection and value. Autocall innovations include:

- Ⓐ ADDRESSABLE TECHNOLOGY that makes installation, testing and maintenance of devices and appliances much easier compared to conventional devices.
- Ⓐ SELF-TESTING CAPABILITIES that save time, reduce interruptions and help ensure optimal operation.
- Ⓐ FORWARD/BACKWARD COMPATIBILITY so your system can be upgraded or scaled up to meet future needs cost-effectively.

THE RELENTLESS PURSUIT OF PERFORMANCE. Our product engineers and designers have been on a mission to advance the state of the art in fire protection technology. This commitment to continuous improvement is what enables us to deliver industry-leading, feature-rich fire safety solutions with zero compromise, such as:

- Ⓐ AUTOCALL CONTROL PANELS offer game-changing addressable technology plus optional advanced features, including voice alarm/evacuation, non-alarm paging and background music, smoke management and control, suppression control and high-level integration with third-party systems utilizing open protocols.
- Ⓐ AUTOCALL TRUEALERT ES ADDRESSABLE NOTIFICATION APPLIANCES combine efficient, cost-effective system design and installation flexibility with revolutionary self-testing capabilities.
- Ⓐ AUTOCALL DETECTORS AND SENSORS include photoelectric smoke detectors, heat detectors, multi-sensor detectors, duct sampling units, CO detectors, flame detectors, and beam detectors that help protect people and operations while assisting to reduce nuisance alarms.

DEDICATED SUPPORT THAT'S ACCESSIBLE AND EXTREMELY KNOWLEDGEABLE. Our products are backed by the fire safety industry's best-trained support professionals—whose sole mission is to help you create safer, more secure environments. You and your customers can rest easy knowing Autocall has your back before, during and after installation.
